

Let us handle IT your way

Better IT Solutions Do Exist

Your business is unique. So are you. That's why a one-size-fits-all IT solution just doesn't cut it. At PCS, we provide managed IT service options and purpose-built plans to meet the specific needs of each customer.

Whether you have hundreds of employees or just a handful, need help setting up a business email account or a whole cluster of servers, our approach is the same every time:

1. We listen as you tell us about the IT needs of your business
2. We assess all the possible solutions you require
3. We hand-craft a managed service plan just for you

Our goal is to take the worry out of your IT by building the right solution for you—one that fits your technology needs, provides the right level of support, and is cost-effective. We deliver IT solutions to help keep your business running smoothly and efficiently so you can focus on what is important ... Your organization!

Helpdesk Service:

With 24/7 live, local IT support, the PCS Helpdesk is a faster, cost-effective support solution ensuring that your business runs efficiently while allowing your team to focus on what they do best.

Managed IT, Co-Managed IT, and Project-Based IT Services:

Looking for helpful, friendly, responsive IT support for a specific project, to assist your in-house staff, or to handle all your IT needs? PCS has the service options and experience to help.

Critical Incident Response:

If the unthinkable happens and your business falls victim to a data breach, ransomware attack, or system outage, the PCS Critical Incident Response Team (CIRT) experts can help you navigate your recovery.
