

About PCS

Get to know us

Friendly. Helpful. Experienced.

Your business is unique. So are you. That's why a one-size-fits-all IT solution just doesn't cut it. At PCS, we provide managed IT service options and purpose-built plans to meet the specific needs of each customer.

Whether you have hundreds of employees or just a handful, need help setting up a business email account or a whole cluster of servers, our approach is the same every time:

1. We listen as you tell us about the IT needs of your business
2. We assess all the possible solutions you require
3. We hand-craft a managed service plan just for you

Our goal? To take the worry out of your IT by building the right solution for you—one that fits your technology needs, provides the right level of support, and is cost-effective. Simply put, we deliver IT solutions to help keep you running.
